

Energy moves the world,
we move the energy.

Preview of oil products output from CLH terminals to Spanish market*

July 2020

Deliveries of oil products from CLH terminals to the Spanish market decreased by 24.1% in July due to the COVID-19 crisis

Deliveries of oil products from CLH Group terminals to the Spanish market during July reached 2.9 million cubic metres, 24.1% less than in the same period of the previous year, after correction of the seasonal effect, due to the COVID-19 crisis

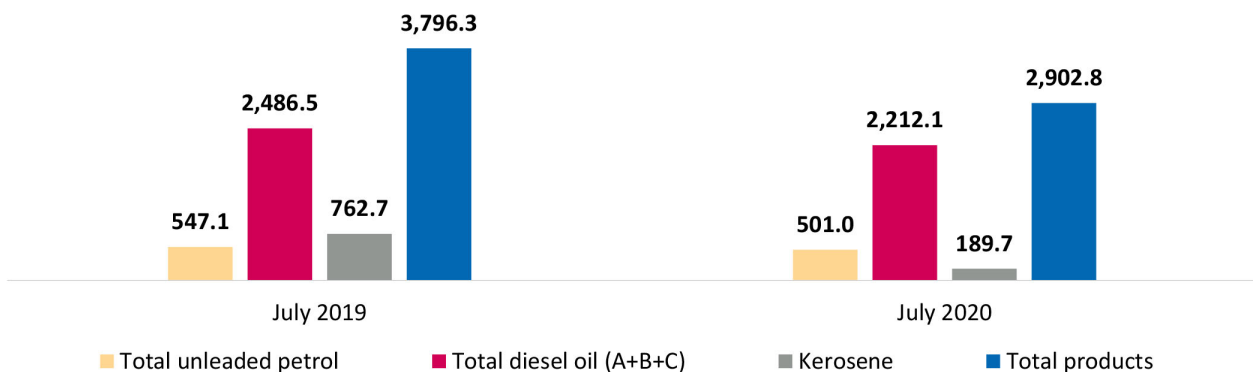

Analysed by product type, deliveries of gasolines experienced a decline of 8.9% and automotive diesel decreased by 11.5%. Deliveries of automotive fuels as a whole decreased by 11.0% and amounted 2.3 million cubic metres.

Regarding the total for diesel fuels (automotive + off road + heating oil), deliveries amounted 2.2 million cubic metres, 11.4% less than in the same period of 2019.

Lastly, deliveries of kerosenes exceeded 189,000 cubic metres, representing a decrease of 75.1% compared with July of last year.

Preview of oil products output from CLH facilities to the Spanish market*
